RE: Chickahominy Pipeline, LLC
Request for Permission to Enter, Inspect and Survey
Parcel ID _____
_____ County, Virginia

Dear Landowner(s):

Chickahominy Pipeline, LLC, (“Chickahominy”) has begun project planning to install a proposed 24 inch (Twenty-four) natural gas midstream line, to be designated as Chickahominy Pipeline, as well as valves and other appurtenances, along a route situate through Charles City, Hanover, Henrico, Louisa, and New Kent Counties, Virginia (the “Project”). The purpose of this letter is to let you know that Chickahominy’s proposed route requires investigation for feasibility for the Project on a parcel of land owned by you or upon which you reside (whether singly or collectively, the “Landowner”).

Request for Permission to Enter, Inspect and Survey. In planning for the foregoing Project, Chickahominy is requesting to enter the Property for the purpose of making surveys, tests, appraisals, or examinations thereof in order to determine the suitability of such property for the Project as are necessary or proper. The purpose of entry will be to evaluate a possible pipeline route, to lay Chickahominy Line with its appurtenances and other facilities. Chickahominy shall make restitution or reimbursement for any actual damage(s), if any, as a result of such activities. At this time, we will only be walking to determine the proposed route select, the most visible route that will limit the impact to the property.

In seeking your permission, Chickahominy has attached “Understanding Surveys” to provide an example of the most-common analysis performed for similar projects. The example is not exhaustive but should help inform. Our activity of your Property will likely begin with a survey crew taking directions and measurements. Most work will be performed on foot, but we ask your permission to use motor vehicles, self-propelled machinery and power equipment on your Property as necessary.

We anticipate both these activities will occur during reasonable daylight hours within the following time frame:

From August 1, 2021 to October 1, 2021.

This time frame may change as the workflow can be impacted by rain, heavy fog or other inclement weather or conditions which may cause delays in activities prior to our entry onto the Property. Weather conditions could also delay our activities while on the Property or otherwise impact our schedule. All employees and/or agents carry photo identification, so please feel free to ask to see it if you have any concerns. If we do not receive your permission by **July 16, 2021**, Chickahominy will seek your permission in person, with masks on (regardless of COVID-vaccination status) and will likewise present photo identification upon request.

Receipt of Permission Granted. You will notice that we have sent two (2) originals of this letter. If you understand the issues set forth in this letter, please indicate your acknowledgement and permission by signing one were indicated below and returning this letter to me in the self-address stamped envelope prior to **July 16, 2021**, keeping one for your records. This will give Chickahominy the right for survey and inspection purposes, only, and does not convey a land right or permission to proceed with the Project, which would require additional negotiation. If you have any questions, please contact Ronnette Roberts at r.roberts@encompassservices.com or (681) 265-5035.

Thank you for your cooperation.

Yours truly,

Ronnette Roberts
